

Webasto Next Incl. Webasto ChargeConnect

The Webasto Next boasts the following features:

- Scalable charging power up to 11 kW or 22 kW, choice of 4.5 m or 7 m cable length
- Digital management of the charging stations via portal and app with the Webasto backend solution Webasto ChargeConnect
- Always online thanks to 24/7 real-time transmission of the wallbox data to Webasto ChargeConnect
- Authentification at the charging station using Scan & Charge with the Webasto ChargeConnect App
- Energy management system (EMS) integration via Modbus TCP
- Local dynamic load management (stand-alone)*
- Integrated meter module for energy consumption monitoring and reporting
- Clever product design with cable suspension and plug socket
- Cost savings for installation thanks to integrated DC residual current protection
- Remotely addressable by the grid operator via ripple control recei-ver to ensure grid stability
- User friendly configuration using Wi-Fi hotspot and Webasto Charger Setup App for installers

Technical specifications	
Electrical characteristics	
Nominal current (A)	16 or 32
(configurable connected load values)	single phase or 3-phase
1. (1.1.6)	The charging station is configurable in 1A step
Line voltage (V AC)	230 / 400 (Europe
Grid frequency (Hz)	50
Grid forms	TN / TT (single phase and 3-phase
	IT (only single phase Splitphase (L1+L2, without N
ENAL/ close	
EMV class	Emitted interference: Class B (residential, business, commercial areas Immunity: Industrial area
Overvoltage category	III as per EN 6066
Protection class	ili as pei Liv 0000
	Desired at a content the state of the state
Necessary protective equipment	Residual current circuit breaker RCD type A and miniature circuit breakers must b provided on the installation sid
Integrated protective equipment	DC residual current protection
Phase rotation	Automatic false phase-sequence detection
Connections	Automatic raise phase-sequence detection
Mounting	Wall and pole mounting (permanently connected
Cable feed	Mounted on-wall or in-wal
Connection cross-section (wire dimension)	Cross-section of the connecting cable (Cu
	taking into account the local conditions and norms 6 or 10 mm² for 16 A and 10 mm² for 32 A
Charging cable	
Charging cable	Type 2 charging cable: up to 32 A / 400 VAC as per EN 62196-1 and EN 62196-2 Length: 4.5 m / 7 m – Integrated cable suspension and plug socke
Output voltage (V AC)	230 / 40
Max. charging capacity (kW)	11 or 2
Communication & features	11012.
	– "Scan & Charge" via QR cod
Authentication	– Scan & Charge Via QK cod – Webasto ChargeConnect Porta
	– Webasto ChargeConnect Ap
Display	RGB-LEDs, buzze
Network interfaces	– LAN (RJ45) – 10 / 100 Base-T
Network interfaces	– WLAN 802.11b/g - 54 Mbit
	– WLAN Hotspo
Communication protocols	OCPP 1.6 J (OCPP 2.0 ready), Modbus TC
External interfaces	- Addressable via ripple control receiver through dry contact
	- Integration into Energy Management Systems (EMS
Local load management	Dynamic (stand-alone) by integration of an external smart meter
Mechanical data	
Dimensions (W × H × D) (mm)	225 x 447 x 116
Weight (kg)	11 kW: 4.6 (incl. 4.5 m cable
	5.3 (incl. 7 m cablel
	22 kW: 5.7 (incl. 4.5 m cable
	6.8 (incl. 7 m cable
IP protection class, device	IP54
Protection against mechanical impact	IKO
Ambient conditions	
Installation site	No direct solar radiation
Operating temperature range (°C)	11 kW: -30 to 5:
	22 kW: -30 to +4:
Temperature behavior	A reduction in charging current or shutdown may occur in orde
	to prevent the charging station overheating
Storage temperature range (°C)	-30 to +8
Permissible relative humidity (%)	5 to 95 non-condensing
Altitude (m)	Max. 3.000 above sea leve
Certification compatibility	
Standards and guidelines	– CE conformit
standards and galdelines	– 2014/53/EU Radio Equipment Directiv
	– 2011/65/EU RoHS Directiv
	- 2001/95/EG General Product Safet
	 – 2012/19/EU Waste Electrical and Electronic Equipment Directive – 1907/2006 REACH Regulation
	- 1907/2000 REACH REGulation
Packand integration	Woharto Charact annot
Backend integration	Webasto ChargeConnect 3rd party backend integration via Weabasto ChargeConnect in preparation

^{*} Automatically available from Q2 2022 through an over-the-air update
